

# Penn Summer Global Institute

*July 1 - August 7, 2026*

Penn Summer Global Institute is a comprehensive academic experience for top undergraduates from around the world with high English language proficiency. In our all-inclusive program, you spend six weeks as a visiting student and experience everything Penn has to offer: earning Ivy League credits alongside other Penn students, living on campus, and socializing with other Penn students from the US and abroad. The Penn Summer Global Institute allows you to choose courses that complement your academic path. Along with enrolling in two courses from any of Penn's Summer Session II offerings, you'll benefit from Penn's range of exceptional resources, including academic advising, world-renowned facilities, and top-rated instructors.

## Housing and dining

Living on campus is an essential part of the Penn experience. Your air-conditioned and furnished suites are conveniently located at the heart of our urban campus and the residence halls are staffed 24 hours a day. You also have the option to enroll in a summer dining plan which allows you to eat at our all-you-care-to-eat dining halls as well as various retail locations on campus.

## Extracurricular events

Philadelphia is bursting with festivities during the summer months. The city is home to some of the nation's top museums and is famed for its performing arts, dining, athletic, and recreational destinations. There are several extracurricular activities planned for you, like a visit to the Philadelphia Museum of Art, a Phillies baseball game, and more. As well as having the opportunity to explore the vibrant and historic city of Philadelphia, you can be in New York by bus or train within two hours and in Washington, DC, within three hours.
